Designer BBL PicturePerfect© File Instructions

Any question please email support@bblsystems.com or call 800-587-7277 x 292.

We will take as much information as you can provide, but at a minimum your style number and a couple of images, such as front and back images is what we need. but we can accept alot more if available.

Create a Spreadsheet (exel or CSV) file that contains these columns:

VendorStyle,Description,ReorderCost,Price1,SizesAvail,Colors1Avail,Colors1Label,Colors2Avail,Colors2Label,Colors3Avail,Colors3Label,ImageURL1,ImageURL2,ImageURL3,ImageURL4,Season,SeasonYear

Column Definitions

Vendor style is your style number

Reorder cost is the wholesale price

Price 1 would be a MSRP

SizesAvail is the size range, could be entered as 0-20 or better is 0,02,04,06,08,10,12,14,16,18,20

Colors1Avail is the colors the style comes in separated by commas (maximum color is 25 characters [characters between commas is 25])

We can support 3 color charts if the dress has multiple color components in

Colors2Avail

Colors3Avail

Colors1Label, Colors2Label, Colors3Label are the component name of the style the color chart applies to. Examples are bodice, skirt, belt

ImageURL2,ImageURL3,ImageURL4 are the image web urls

Season is FALL or SPRING

SeasonYear is 2017, 2018 etc

Skip any column you do not want to complete, empty/blank is ok. But remember as a minimum I need STYLE & Image URLS

Wrong/Correct tips:

Remove any extra characters in the vendor style.
